Columbia, SC 29210

RE: SCPSC Docket 2005-385-E Order No. 2006-680

I am writing to urge the commission to adopt a "Net Metering" policy in South Carolina that will include residential customers as well as non-residential.

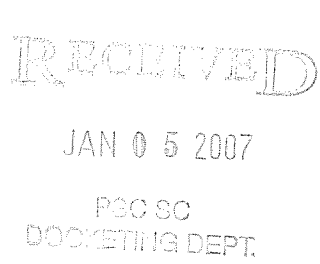

In fact, it seems the best policy available would be "Time of Use Net Metering" where the rate paid to the homeowner would be tied to peak demand usage.

As you debate this policy, please help South Carolina strive to be a leader instead of being one of only 15 states that do not have any net metering.

Thank you.
